

PROFESSIONAL DEVELOPMENT WORKSHOPS

WHAT WORKSHOPS DO WE OFFER?

Our staff are trained in a variety of nature-based curriculums that can be utilized in all educational settings. Environmental education is a process that allows individuals to explore their environment. Nature is for everyone, and our workshops help educators connect youth to the natural world through fun, hands-on activities. Check out some of the curriculums:

WHY ARE OUR WORKSHOPS IMPORTANT?

Nature provides many mental, emotional, and physical benefits to youth AND adults such as: an increase in ability to focus and problem solve, a reduction in stress levels and negative emotions, a boost in creativity and imagination, and much more! Not to mention, youth exposed to environmental education tend to be more likely to participate in environmental stewardship as they grow up.

HOW DO WE OFFER WORKSHOPS?

Workshops can be booked for one session, multiple sessions, weekdays or weekends based on staff availability. Workshops can be offered on or off site. Attendees can expect to participate in hands-on activities and practice utilizing the curriculums and tools. Price will vary based on duration, location, amount attending, and materials needed. Contact our education team for assistance in scheduling your personalized workshop to fit your groups needs. Workshops have a 5 person minimum.

WHO CAN BOOK WORKSHOPS?

ANYONE! We encourage any school, group or organization working with youth to schedule a workshop on how to incorporate nature into your teachings.

- Schools (PreK-12th Grade)
- Day Cares
- Pre-Service Teachers
- Boy Scouts of America
- Girl Scouts
- Libraries
- Museums
- And more!
